Website

About me

I am a graduate of undergraduate studies in the field of Social Informatics at AGH. I'm looking for possiblity for gaining experience in field in which I want to link my futer with. I'm interested in people and I want to make my work have positive impact on them - that's why I'm interested in UX. As I was going through my studies and as I'm working on my own I'm getting to now more and more about UX and how to make good solution in this area. If you're interested in my projects, I invite you to look at my website: portfolio.

Character

- Great perseverance in pursuing the goal.
- Truthfulness.
- Willingness to support others.
- Openness to new acquaintances.
- Willingness to learn.

Experience

2021 - Bechelor Degree Thesis - Website project watchmaker and locksmith shop
     - Furniture Shop Website (e-commerce)
     - Redesign Of Eco Shop Website (e-commerce)

2020 - Responsive Prototype For Online Library
     - Prototypes Made Based On Briefs - For Smart TV, Smart Watch, Ticket Machine

2019 - Made With Service Design Process - "Improving The Quality Of The Visit At Hospital Emergency Ward"

2017 - Made With Design Thinking Process - "Improvement Of Wirtualne Muzea Małopolski"

Skills

UX:
- make effective research in topic
- make benchmark
- make website audit
- make indepth interview
- make simple UX tests with users
- Knowledge of Designing Processes: Service Design, Design Thinking, UX-process.
- Knowledge of UX Design Principles (in some range).
- Knowledge of low / high fidelity prototypes, wireframes, mock ups.

HTML, CSS - the website where my portfolio is located was created on the basis of a template, which I transformed as needed - I have basic knowledge of the front-end.

Programming in Python, C++ - during my studies, I created math programs in the above-mentioned languages (I used a narrow range of libraries):
    - basics of programming: classes, local and global variables, constants, libraries, loops, ...

English - I used English in my former job to a large extent, I also communicate on a daily basis in English among foreigners.   .
    - I read articles and conduct UX courses in English

Tools

Figma:
    - make prototypes, mock ups, wireframes
    - make graphics for projects need
    - using components, plugins, libraries to make work faster and better

Axure:
    - using components, libraries to make work faster and better
    - make responsive prototypes (a large range of possibilities in interactivity - variables, conditional choices, ...)

Adobe XD:
    - use components, repeat grids, larger range of possibilities in interactivity than figma
    - make basic wireframes (abilities from figma)

Education

2017 - 2021	Social Informatics	Akademia Górniczo - Hutnicza
2018 - 2019	Computer Engineering	Politechnika Krakowska
2014 - 2017	Mathematic and Physic Field	1 LO in Zamosc (high-school)

Work

09.2019 - 12.2020	Waiter	Gruzińskie Chaczapuri
12.2017- 03.2018	Worker	Burger King
01.2021 - Now	Assistant at Watchmaker and Locksmith shop	WALDI

Certificates

- Bechelors Degree Diploma
- English B2 level - AGH certificate
- Finished course: <u>Introduction to User Experience Design from Georgia Tech</u>
- Finished course: <u>User Experience Design Essentials - Adobe XD UI UX Design from Daniel Wolter Scott</u>
